

FutureOS Keyboard Prototype – key matrix 5x5 (COL -> switch -> diode -> ROW)

Prototype only: XIAO RP2040 is a test controller, NOT part of the FutureOS Regular mainboard.

U1 = XIAO RP2040 (hand soldered, back side)

J1: FPC to FutureOS Regular mainboard (pinout TBD on mainboard side).
Do NOT connect the FPC while the XIAO is fitted.
